1. NATURE OF OPERATIONS AND GOING CONCERN

Sonoro Metals Corp. ("Sonoro" or the "Company") was incorporated in Ontario on November 30, 1944 under the *Company Act* of Ontario. On January 15, 2007, the Company was issued a Certificate of Continuation by the Province of British Columbia. On December 20, 2011, the Company changed its name from Becker Gold Mines Ltd. to Sonoro Metals Corp, which took effect on January 6, 2012. The Company's principal business activity is the acquisition, exploration and development of exploration and evaluation assets. The Company is a publicly-traded company listed on the TSX Venture Exchange ("TSX-V") under the symbol "SMO".

The head office, registered address and records office of the Company is located at 480 – 789 West Pender Street, Vancouver, British Columbia, Canada, V6C 1H2.

The Company incurred a net loss of \$31,480 for the three months ended March 31, 2013 (2012 - \$102,404). As at March 31, 2013, the Company had an accumulated deficit of \$1,722,570 with a working capital of \$1,024,287.

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes the Company will realize its assets and discharge its liabilities in the normal course of business. These condensed interim consolidated financial statements do not include any adjustments related to the recoverability of assets and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company has no source of revenue, and has significant cash requirements to meet its administrative overhead and to finance mineral property acquisitions and future exploration. The Company does not generate cash flow from operations to adequately fund its activities and has therefore relied principally upon the issuance of securities for financing. The Company intends to continue relying upon the issuance of securities to finance its future activities, but there can be no assurance that such financing will be available on a timely basis under terms acceptable to the Company. Although these condensed interim consolidated financial statements do not include any adjustments that may result from the inability to secure future financing, such a situation would have a material adverse effect on the Company's business, results of operations and financial condition.

These condensed interim consolidated financial statements were approved by the board of directors for issue on May 23, 2013.

2. BASIS OF PRESENTATION

Statement of Compliance

These condensed interim consolidated financial statements have been prepared by management in accordance with IAS 34 'Interim Financial Reporting' ("IAS 34") using accounting principles consistent with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB").

The significant accounting policies applied in preparing these condensed interim consolidated financial statements are consistent with the accounting policies as disclosed in the Company's audited consolidated financial statements for the year ended December 31, 2012 with the exception of the new accounting policies disclosed in note 3 below.

These condensed interim consolidated financial statements do not include all of the required disclosures for annual consolidated financial statements. Accordingly, they should be read in conjunction with the Company's consolidated financial statements for the year ended December 31, 2012 and the notes thereto.

Basis of Measurement

These condensed interim consolidated financial statements have been prepared on a historical cost basis, except for cash and cash equivalents and other financial instruments classified as fair value through profit or loss or available-for-sale that have been measured at fair value, and are presented in Canadian dollars.

Basis of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned integrated subsidiaries, Cap Capital and Minera Mar Plata S.A. de C.V ("MMP"). All significant intercompany transactions and balances have been eliminated.

3. SIGNIFICANT ACCOUNTING POLICIES

Changes to accounting policies

The following accounting standards and amendments to existing standards were adopted effective January 1, 2013:

- IFRS 10 Consolidated Financial Statements;
- IFRS 11 Joint Arrangements;
- IFRS 12 Disclosure of Interests in Other Entities;
- IFRS 13 Fair Value Measurement;
- IAS 19 Employee Benefits
- IAS 27 Separate Financial Statements;
- IAS 28 Investments in Associates and Joint Ventures; and
- IAS 1 Presentation of Financial Statements.

The adoption of these standards has not had a significant impact on the Company's financial position or financial performance.

Changes in accounting standards not yet effective

Accounting Standards Issued and Effective January 1, 2014

IAS 32 *Financial Instruments: Presentation* clarifies certain aspects because of diversity in application of the requirements on offsetting, focused on four main areas:

- The meaning of "currently has a legal enforceable rights of set-off";
- The application of simultaneous realization and settlement;
- The offsetting of collateral amounts; and
- The unit account for applying the offsetting requirements.

Accounting Standards Issued and Effective January 1, 2015

IFRS 9 *Financial Instruments* addresses the classification, measurement and recognition of financial assets and financial liabilities. IFRS 9 was issued in November 2009 and October 2010. It replaces the parts of IAS 39 *Financial Instruments: Recognition and Measurement* that relate to the classification and measurement of financial instruments. IFRS 9 requires financial assets to be classified into two measurement categories: those measured at fair value and those measured at amortized cost. The determination is made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument.

For financial liabilities, the standard retains most of the IAS 39 requirements, except that fair value changes due to credit risk for liabilities designated as fair value through profit or loss would generally be recorded in other comprehensive income.

The Company anticipates that the application of these standards, amendments and interpretations will not have a material impact on the results and financial position of the Company.

c) Stock options

Pursuant to the policies of the TSX-V, under the Company's stock option plan, options to purchase common shares are granted to directors, employees and consultants at exercise prices determined by reference to the market value on the date of grant for a maximum term of five years. The board of directors may grant options for the purchase of up to a total of 10% of the outstanding shares at the time of the option grant less the aggregate number of existing options and number of common shares subject to issuance under outstanding rights that have been issued under any other share compensation arrangement. Options granted under the plan may vest over a period of time at the discretion of the board of directors.

A summary of the Company's outstanding and exercisable stock options at March 31, 2013 and December 31, 2012 and changes during the first quarter ended March 31, 2013 is as follows:

	Outstanding	Exercisable	Weighted Average Exercise Price

Mexico	-	1,375,211	1,375,211
Total	\$ 9,281	\$ 1,375,211	\$ 1,384,492

11. FINANCIAL INSTRUMENTS

The Company has classified its cash and cash equivalents as fair value through profit and loss; receivables, as loans and receivables; and accounts payable and accrued liabilities and due to related parties, as other financial liabilities.

Fair value

The carrying values of accounts payable and accrued liabilities and due to related parties approximate their fair values due to the short-term nature of these financial instruments.

Financial Risk Management

The Company is exposed to varying degrees to a variety of financial instrument related risks:

Credit risk

The Company is exposed to credit risk with respect to its cash. Cash has been placed on deposit with major Canadian and Mexican financial institutions. The risk arises from the non-performance of counterparties of contracted financial obligations. The Company is not exposed to significant credit risk on receivables as these amounts are due from government agencies.

SONORO METALS CORP.

Notes to the condensed interim consolidated financial statements
(Expressed in Canadian Dollars)
Three months ended March 31, 2013 and 2012

11. FINANCIAL INSTRUMENTS (Continued)

Credit risk (continued)

Concentration of credit risk exists with respect to the Company's cash as the majority of the amount is held with only a few Canadian and Mexican financial institutions. The Company's concentration of credit risk and maximum exposure thereto at March 31 is as follows:

	2013	2012
Cash held at major Canadian financial institutions	\$ 1,116,281	\$ 1,435,526
Cash held at major Mexican financial institutions	13,981	43,036
Total cash	\$ 1,130,262	\$ 1,478,562

As at March 31, 2013, the Company held a guaranteed investment certificate of \$850,000 earning interest at prime less 1.95%, maturing December 19, 2013, and cashable at any time.

Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company's approach to managing liquidity risk is to provide reasonable assurance that it will have sufficient funds to meet liabilities when due. The Company had working capital at March 31, 2013 in the amount of \$1,024,287 (2012 - \$1,383,036).

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk.

(i) *Interest rate risk*

The Company's cash and cash equivalents consist of cash held in bank accounts. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values as of March 31, 2013.

(ii) *Foreign currency risk*

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars.

The Company is exposed to foreign currency risk with respect to cash and cash equivalents, receivables, due to related parties, and accounts payable and accrued liabilities as a portion of these amounts are denominated in US dollars and Mexican pesos. The Company has not entered into any foreign currency contracts to mitigate this risk.

11. FINANCIAL INSTRUMENTS (Continued)

Market risk (continued)

(ii) *Foreign currency risk (continued)*

As at March 31, 2013 and 2012, the Company's significant exposure to foreign currency risk, based on consolidated statement of financial position carrying values, were to the Mexican peso and the US dollar, as follows:

	March 31, 2013	
	MXP	USD
Cash	148,696	1,843
Receivables	265,869	-
Accounts payable and accrued liabilities	(149,466)	-

Accounts payable and accrued liabilities	(199,466)	-
	273,466	40,811
Canadian dollar equivalent	\$ 21,325	\$ 40,848

The sensitivity analysis of the Company's exposure to foreign currency risk at the reporting date has been determined based upon hypothetical changes taking place at March 31, 2013 and 2012, which includes a hypothetical change in the foreign exchange rate between the Canadian dollar and Mexican peso and the Canadian dollar and US dollar and the effect on loss and comprehensive loss.

(iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to significant other price risk.
