(Formerly Becker Gold Mines Ltd.) Notes to the Condensed Interim Consolidated Financial Statements (Expressed in Canadian Dollars) Nine months ended September 30, 2012 and 2011

1. NATURE OF OPERATIONS AND GOING CONCERN

Sonoro Metals Corp. ("Sonoro" or the "Company") was incorporated in Ontario on November 30, 1944 under the *Company Act* of Ontario. On January 15, 2007, the Company was issued a Certificate of Continuation by the Province of British Columbia. On December 20, 2011, the Company changed its name from Becker Gold Mines Ltd. to Sonoro Metals Corp, which took effect on January 6, 2012. The Company's principal business activity is the acquisition, exploration and development of exploration and evaluation assets. The Company is a publicly-traded company listed on the TSX Venture Exchange ("TSX-V") under the symbol "SMO". Refer to note 2.

The registered address of the Company is located at 680 – 789 West Pender Street, Vancouver, British Columbia, Canada, V6C 1H2.

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes the Company will realize its assets and discharge its liabilities in the normal course of business. These condensed interim consolidated financial statements do not include any adjustments related to the recoverability of assets and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company has no source of revenue, and has significant cash requirements to meet its administrative overhead and to finance mineral property acquisitions and future exploration. The Company does not generate cash flow from operations to adequately fund its activities and has therefore relied principally upon the issuance of securities for financing. The Company intends to continue relying upon the issuance of securities to finance its future activities, but there can be no assurance that such financing will be available on a timely basis under terms acceptable to the Company (refer to note 9). Although these condensed interim consolidated financial statements do not include any adjustments that may result from the inability to secure future financing, such a situation would have a material adverse effect on the Company's business, results of operations and financial condition.

2. REVERSE ACQUISITION

On October 20, 2011, pursuant to an agreement dated August 25, 2011, the Company issued 12,284,782 common shares of the Company to the shareholders of Cap Capital Corp. ("Cap Capital"), a private company, in exchange for all of the issued and outstanding shares of Cap Capital (the "Transaction").

Upon completion of the Transaction, the shareholders of Cap Capital owned 79.69% of the common shares of the Company. The Transaction resulted in the former shareholders of Cap Capital acquiring control of the Company and has been accounted for as a reverse acquisition by Cap Capital, with the legal subsidiary being treated as the accounting parent and Sonoro, the legal parent, being treated as the accounting subsidiary. A reverse acquisition transaction involving a non-public operating entity and a non-operating public company is in substance a capital transaction, rather than a business combination and is considered a recapitalization of the public company.

(Formerly Becker Gold Mines Ltd.) Notes to the Condensed Interim Consolidated Financial Statements (Expressed in Canadian Dollars) Nine months ended September 30, 2012 and 2011

2. REVERSE ACQUISITION (Continued)

The condensed interim consolidated financial statements have been prepared as a continuation of Cap Capital and have been issued in the name of the Company, being the legal parent. The Transaction has been measured based on the fair value of the shares that have been issued to Sonoro's shareholders.

Accordingly, the Transaction has been accounted for as follows:

- the historic equity of the Company has been eliminated and the excess of the fair value of the common shares issued over the fair value of net assets acquired has been recorded as a listing expense;
- b) the deficit and other equity balances are those of Cap Capital immediately prior to the Transaction:
- c) the equity structure presented in these consolidated financial statements (the number and type of equity instruments issued) reflects the equity structure of the Company, including the equity instruments issued by the Company to effect the Transaction;
- d) the assets and liabilities of Cap Capital are recognized and measured at their pre-Transaction carrying amounts and the net assets of the Company on the Transaction date have been measured at their fair value of \$60,509.
- e) comparative information presented in these consolidated financial statements are for Cap Capital. Certain comparative figures have been reclassified in order to conform to the current year's presentation.

The fair value of Sonoro's net assets acquired and liabilities assumed are as follows:

Cash	\$ 270,510
Receivables	9,161
Prepaid expenses	1,400
Equipment	10,490
Accounts payable and accrued liabilities	 (231,052)
Fair value of net assets acquired	60,509
Fair value of 3,131,671 common shares issued	 (626, 334)
Listing expense	\$ 565,825

The condensed interim consolidated statements of comprehensive loss and cash flows for the nine months ended September 30, 2012 are those of Cap Capital.
